# Introduction

In this project is the goal to create a web page presentation using R Markdown that features a plot created with Plotly.

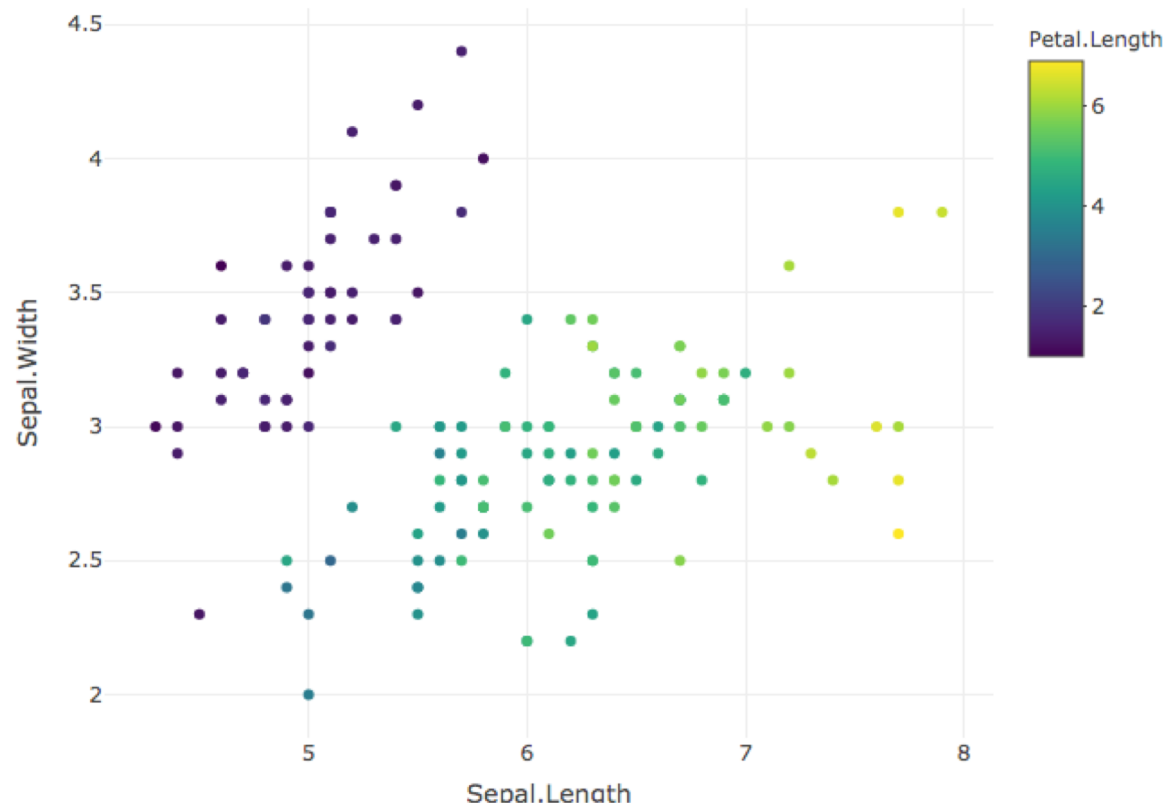

# Code in R & Plot

```
# Loading dataset
```

```
data("iris")
```

```
library(plotly)
```

```
plot_ly(iris, x = ~Sepal.Length, y = ~Sepal.Width, type =  
"scatter", mode = "markers", color = ~Petal.Length)
```

# Thanks for the attention
